Subject: RE: Navy Comparison of Treatment Alternatives

As we discussed:

The Annual Report to Congress is available on the Navy's public website - <http://go.usa.gov/DyXF>

<http://www.newsday.com/long-island/nassau/officials-call-for-action-in-wake-of-report-on-grumman-site-1.13760077?view=print> – Newsday story on Navy-Grumman remediation issues. Local and federal officials Friday called on the state, the U.S. Navy and Northrop Grumman to release documents relating to the handling of all radioactive materials at a former research, testing and manufacturing facility in Bethpage. Separately, the Navy released a report about contamination associated with those Bethpage operations and said full containment of groundwater plumes emanating from there was not feasible and likely unnecessary.

Hi Jason

Sorry I didn't get back to you sooner.

June 26 at 11 works for us.

Thanks and have a good weekend.

Doug:

That sounds good. How about Monday, June 26 at 11:00 AM or 2:30 PM?

Thanks
Jason

Hey would you guys have some time next week for a short call to check in on Grumman? If so, could you propose a few times that would work for you?

Thanks

Doug

Hi Doug,

Attached is the Navy's draft table which provides a comparison of treatment alternatives for the proposed interim system. Please note that we have requested that the Navy also provide a comparison for the proposed RE-108 Hot Spot system. Thanks.

Don
